

REFERENCE LETTER FOR JOHN MAMBAMBO (The Editing Centre Pty Ltd).

This letter serves as a recommendation for The Editing Centre (Pty) Ltd, a language company based in South Africa.

We are based in China and they are based in Cape Town, South Africa, but we entrusted them with a huge Two Chinese-Shona Dictionaries project with a total of 28 5757 words and a Chinese-Ndebele Dictionary Project with 11 386 words. The Project brief from our end was that such a huge project could only be awarded to a qualified, experienced, professional and organised team that would be able to deliver on time - and The Editing Centre was such a company to work with. Indeed, they were selected from a pool of other big global competitors because of their qualification and uncompromised professionalism.

John was our contact person as the Head of The Editing Centre team and he was always professional, contactable at all times, responded immediately to any communication and delivered a masterpiece in all the projects. The three projects had to go through a rigorous quality assurance process and all of the projects that The Editing Centre worked on were of such an exceptional quality that we received outstanding feedback from reviewers and we published all the 3 Dictionaries that are currently on the market.

Given their level of professionalism, quality of work and their integrity, we would not hesitate to give John and The Editing Centre team any language project of any size, they can handle it. We also wouldn't hesitate to recommend them to any International Organisation that would want a professional team on their language projects!

Sincerely

Alexander Liu
